

# CLEARTEC

## Wastewater Treatment Systems

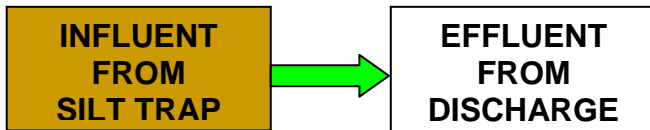

Designed to treat wastewater runoff from construction sites to reduce the total suspended solids content below 50mg/litre. The treated water can then be discharged into the public drainage system or recycled for further use.

- Fully automatic
- All steel construction
- Few mechanical parts
- Low maintenance cost
- Operates on single phase power
- Driven by contractor's submersible pump
- Chemical processing security gates
- Hinged walkways & removable railings on top
- Uses powder chemicals – more cost effective & longer shelf life
